Mike Cantillon of the American Association, a prime mover in that organiza-tion, had an appointment to confer with the Chicago Federal leaguers regarding the signing of a lease to the North Side grounds, where the Federals will cavort

We will hold him to his agreement and we will make good our word. We have planned our course and we will follow the policy laid out. We have the best legal advice obtainable and we feel we are strictly within the law." Ad Brennan's telegram, sent from Kan-

He predicted that the Feds gradually would fade away to nothing for and others would have cold feet as soon said as they realized how much money they would have to spend to put their circuit n working order. He showed that the Federals had signed not more than fif-teen or eighteen former National and American League players; that they had been forced to furnish large sums of ad-vance money; that four of their cities were in the minor league class and that in all of their cities new concrete and steel plants would have to be constructed within the next two months in order to start the season on time. Ebbets went on to say that practically

all of the Brooklyn players had received Federal League offers, but that he had experienced little or no difficulty in signing them.
